Specifications

Model	Type	Capacity Gross / Nett		Temperature	Annual Energy Consumption	Dimensions (mm) Width / Depth / Height			Climate Class	Energy Rating	Refrigerant	List Price
XPI700	Fridge	700 ltrs	481 ltrs	-2°C to +8°C	333 kWh	693	875	2119	5	A	R290a	£2,598
XNI700	Freezer	700 ltrs	481 ltrs	-18°C to -22°C	2754 kWh	693	875	2119	5	D	R290a	£2,958

Key Features

Power supply: 13 amp plug

Stainless Steel doors with integrated handle

Hinged doors (left or right) with automatic return

24 grid level positions for increased loading capacity

80mm thick (CFC-free) polyurethane insulation

Extra large touch screen controller

Forced draft evaporator with anti-corrosion cover

Castors fitted as standard

Premium Single Door Storage Cabinets XPI700 & XNI700

Additional Features

- Specially manufactured in high-quality Stainless Steel for intensive professional applications, featuring a very robust design and perfect finishing.
- 80mm thickness (CFC-free), high-density (40kg/m³) polyurethane insulation, injected under high pressure.
- Completely Stainless Steel made door with integrated handle and excellent finishing.
- Hinged doors with automatic return for a perfect closing that minimize temperature gain. Doors have a 120° dwell position and closes automatically at less than 90°. Door hinges are also reversible allowing the cabinet to be adapted on-site.
- Extra large touch screen controller with easily adjustable parameters, energy saving mode and HACCP alarm system.
- Low energy consumption LED lighting to display the interior of the cabinet.
- Intelligent air circulation system ensures perfect temperature consistency with its innovative airflow design.
- Door switch stops the fan when door is opened to avoid cold air exiting the interior, thus saving energy.
- Automatic evaporation of defrost water. Hot gas coming from the compressor is used to automatically evaporate defrost water, instead of by means of heating elements, achieving even less energy consumption.
- Stamped guides with rounded edges enable more convenient cleaning operations without any difficulties. Placing and adjusting the grids is also easier than ever. Plastic coated wire grids allow storage of different packaging types and have a maximum loading capacity of up to 40kg.
- Removable pull-out/push-in magnetic door gasket to keep maximum hygiene and maintain the insulating properties.
- Rounded edge interiors, easier cleaning operations to reduce potential dirt traps.

Premium Range Cabinet Features

XPI700 / XNI700 / XPI142V / XNI142V

High efficiency components

Low energy compressors, large area evaporators and high performing electronic fans that minimize temperature gains, reducing energy consumption.

Integrated Stainless Steel handle

Ergonomic, Stainless Steel made, robust, perfectly integrated handle ensures practical opening of the door that avoids dust and dirt collection and is extremely easy to clean.

Insulation - 80mm thickness

80mm thickness CFC-free, high-density (40kg/m³) polyurethane insulation, guarantees exceptional, long-term insulation and energy savings in all Vantage cabinets.

Intelligent air circulation system

Perfect temperature consistency with its innovative airflow design that encircles the food and ensures its proper conservation.

Rounded edge interior

Easier cleaning operations to reduce potential dirt traps and optimum hygiene.

Removable door gasket

Removable pull-out/push-in magnetic door gasket to keep maximum hygiene and maintain the insulating properties.

Maximum energy savings

The XPI700 refrigerator achieves the highest A Rating under the conditions defined in climate class 5, ensuring the maximum energy savings.

*The label complies with the delegated regulation (UE) 2015/1094 of the commission of 5th May 2015

Compact controller

Extra large, screen touch controller with energy saving strategy and HACCP alarm system, which allows an easy temperature parameter adjustment ensuring the best food preservation. It also offers a Bluetooth data logger as an option.

Automatic evaporation of defrost water

Hot gas coming from the compressor is used to automatically evaporate defrost water, instead of by means of heating elements, achieving even less energy consumption.

Stamped guides, sturdy wire grids

Stamped guides with rounded edges enable more convenient cleaning operations without any difficulties. Plastic coated wire grids allow storage of different packaging types and have a maximum loading capacity of up to 40kg.

Internal LED lighting

Low energy consumption LED lighting to display the interior, standard in all Vantage upright models.

Self closing hinged doors

Hinged doors with automatic return for a perfect closing that minimize temperature gain and reduces energy consumption. Doors have a 120° dwell position and closes automatically at less than 90°. Door hinges are also reversible.
