

# G500

Front loading commercial glasswasher with two minute wash cycle and simple two button controls for effortless, consistently clean results.

The G500 is an easy to operate glasswasher with a 500 x 500mm basket that holds 25 pint-sized glasses. With its 1.5 and 2 minute wash cycle, this machine is capable of cleaning up to 1000 glasses per hour.

The digital LCD display accurately shows the temperature of the wash tank and rinse boiler, reassuring the operator that it is up to temperature and fully sanitising during the wash cycle.

With intuitive colour coded lighting and universally recognised symbols, this machine is incredibly easy to use, plus features performance enhancing customisations through its advanced settings modes. Additionally, its clever software constantly monitors wash cycles, temperatures, chemical usage and any errors giving valuable data which is used to improve operational efficiencies.

The G500 comes as standard with a gravity drain, which is suitable in instances where the machine is above the waste outlet. The optional drain pump (G500P) is essential where the drainage is either higher than the machines waste outlet, or has to be pumped to a stand pipe.

### Warewashing made simple:

#### Locally manufactured

Our machines are Made in Britain (Staffordshire) meaning shorter lead times on delivery, parts and support.

#### 1.5 and 2 Minute Cycle Time

The G500 1.5 and 2 minute cycle allows for maximum output without compromising wash quality.

#### LCD Display

The G500 enhances user functionality by displaying rinse and wash tank temperatures.

#### Advanced Customer Features

Adjust rinse aid and detergent settings and priming of chemical pumps.

#### Colour Coded Display

Amber flashing - Machine heating Blue - Machine in cycle Green - Machine ready

#### **Operational Monitoring**

Our machine constantly monitors heating and water usage to improve the efficiency.
