

Connecta Low Height Equipment Stand
INSTRUCTION MANUAL

Models

HEF655 – Equipment Stand 600x600x550

Assembly Instructions

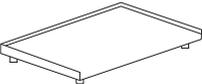

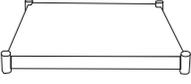

Stainless Steel Equipment Stand

Safety Tips

- Whilst all care has been taken to remove sharp edges, care must be taken when cleaning or handling the table to prevent risk of injury from exposed metal edges.
- Do not overload the table top or shelf, this may cause it to bend.

Parts List

		
Table Top	Under shelf	Legs
1	1	4
		
Allen Key	Screws	
1	16+2 (Spare)	

Assembly

1. Remove all packaging including all protective packing material from top shelf, legs and undershelf, taking care to avoid scratching the surfaces.
2. Place the under shelf on its side on the floor
3. Insert the legs into the sockets situated at each corner of the under shelf [Fig.1]
4. Use grub screws to loosely fix the under shelf to the legs at approximately 8" from floor, then stand upright [Fig. 2]
5. Position the table top onto the legs, ensuring each leg is firmly located in its corresponding corner sockets [Fig. 3]
6. Fix the table top using grub screws. Ensure the table top is both level and securely fixed
7. Tightly fix all screws which were first left loose.
8. Before using for the first time, it's recommended that the table is cleaned thoroughly with a suitable cleaning agent. Remove all cleaning residue and dry thoroughly.

Be sure to check all packaging materials for any small parts that may have come loose during transportation

Cleaning

- Clean the table regularly using a cleaning agent suitable for use with stainless steel and galvanised surfaces.
- Always remove cleaning agent residue, this can discolour the surface.
- Never leave the shelf surface damp as this can cause discolouration.
