

BCT2

STAINLESS STEEL CONVEYOR TOASTER

With only a 25 second cycle time and space for 2 slices to fit side by side, you can keep the bread toasting going with approximately 360 slices per hour output on the BCT2. The speed and temperature can be adjusted dependant on your needs so you can be sure it can keep up with just about anything you throw at it.

Other features include front or rear chute options, 'V' shaped heat deflectors and a crumb tray making clean up even easier.

MODEL	DIMENSIONS (mm)	POWER USAGE	POWER	WEIGHT (kg)
