NFG309

Frostfree display freezer

NFG 309 is designed to display frozen items of food. The frostfree freezer defrosts automatically at regular intervals, thus preventing stored items from being covered in frost or sticking to each other. A heated door ensures that the glass is kept free of condensation and secures visibility. NFG 309 can stand alone or with advantage be placed side-by-side with the identically designed display cooler FKG 371.

-  **Lock**
-  **Automatic Defrost**
-  **Adjustable thermostat**
-  **Heated glass door**
