Single door built under counter wine storage unit

The WINE010 is a single zone wine storage unit. It will hold 34 x 750ml wine bottles.

The door is manufactured from joint free stainless steel with smoked glass.

The interior lighting is a blue LED, so looks beautiful in situ and low lighting environments. The door can be reversed, but is supplied as right hand hinged.

This unit also benefits from forward ventilation, assisting with built-in installations.
