ABOUT US

BRITISH-MADE STORAGE AND HANDLING
SOLUTIONS AT COMPETITIVE PRICES

WHO ARE WE?

We are the UK's leading designer and manufacturer of shelving, racking, trolleys and wirework products.

Using our expertise and experience of more than 60 years, combined with the latest technologies, we offer space-saving design and innovation in storage and handling.

Our robust, flexible products and systems offer original and unique solutions to the storage and handling needs of a wide range of industries including:

- Catering
- Healthcare
- Mortuary
- Logistics
- Educational
- Industrial
- Pharmaceutical
- Marine
- Bakery
- Shopfitting
- Retail
- Electronics

Alongside our standard product range, we also offer OEM and Bespoke solutions to match specific storage and handling requirements.

A vast majority of our products are designed and manufactured at our Yorkshire premises using mainly UK-sourced materials, and we work with an established network of trusted British suppliers. This means we are able to offer high quality products at low cost and with short lead times in both small and larger volumes, even for bespoke items.

We remain a thoroughly British manufacturer, with approximately 90% of our products designed and produced in Knaresborough. Proud of our home-grown heritage and our manufacturing expertise, we are committed to providing high quality products.

STAINLESS SOLID**PRODUCT RANGE: SSM**

MEDICAL

FOOD
PROCESSING

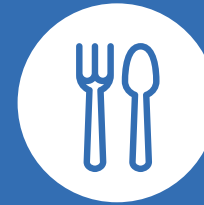

CATERING

- Available in 3 or 4 tier in full 304G stainless steel finish.
- Constructed with a solid channel perimeter for ease of cleaning and a solid stainless steel centre to maximise air flow.
- Suitable for general dry storage, refrigeration, freezers and retail displays.

**SEE PAGE 30 FOR
PRODUCT SPECIFICATIONS**

POLY COATED CHROME**PRODUCT RANGE: CHMN**

MEDICAL

FOOD
PROCESSING

CATERING

- Available in 3 or 4 tier in a polymer coating
- Similar in design to our Chrome Wire shelving, the wire mesh centre allows for maximum air flow
- The hard wearing polymer coating makes it ideally suited for dry or cold storage whilst providing some protection against corrosion
- The weight loading capability is high making it a popular choice in commercial kitchens and for retail display

**SEE PAGE 31 FOR
PRODUCT SPECIFICATIONS**

HTM71

Ideal for secure and organised storage of medical consumables, assisting with the regular flow of materials.

ENCLOSURE KITS

Provide secure storage of products where required – complete kits or single tier available.

DISPLAY SHELVING

Angled shelves give the opportunity to professionally display goods – single tiers compatible with appropriate existing units

TRACK SYSTEM

Designed for areas where space is an issue but storage demands are high, maximum stability and smooth movement is certain.

EPOXY COATED SHELVING

Perfect for dry storage and medical environments, the white epoxy coating makes the shelving well suited to chemical areas and medical environments.

GARMENT RAIL

A versatile option allowing additional storage capacity – mobile option readily available.

SPECIFICATION SHEET
NYLON

PRODUCT CODE	NYM
BASE SHELF MATERIAL	Mild Steel
FINISH	Silver grey thermoplastic powder coating applied via a fluidised bed. Food Contact certified.
USES	General catering storage, Dry storage, Refrigeration, Freezer, Retail displays.
WIDTHS AVAILABLE	300mm, 400mm, 450mm, 500mm, 600mm
LENGTHS AVAILABLE	600mm, 800mm, 900mm, 1000mm, 1100mm, 1200mm, 1300mm, 1500mm, 1800mm
WEIGHT LOADING	Up to 900mm – 150Kgs per shelf 1000mm – 140Kgs per shelf 1100mm – 135Kgs per shelf 1200mm – 110Kgs per shelf 1300mm – 100Kgs per shelf 1500mm – 90Kgs per shelf 1800mm – 75Kgs per shelf
POST OPTIONS	1700mm as standard (other heights available) Stainless steel Post also available
FEET	Standard supply Bolt foot, (Glide Feet and castors also available).
FEATURES & OPTIONS	'S' Hooks for continuous bay and ninety degree angled units Base Frame & Infill Shelves available
CLEANING	Cleaning should be undertaken using general purpose cleaning agents and may be pressure washed or steam cleaned. Castors may not be power washed or steam cleaned. Always read the label of the detergents to verify suitability with the product finish

- All weight loadings assume even load distribution across the shelf and are based on a 5% deflection of the centre of the shelf
- Maximum weight loading per bay is 800Kgs for a static bay, assuming bottom shelf is 70mm from the floor
- For mobile bays on standard castors the maximum weight loading is 240Kgs assuming a 3 point load and 80Kg per castor
- All shelf dimensions are shown as Nominal Width and Lengths, for actual widths subtract 9mm and for actual length subtract 34mm

MORTUARY

Our mortuary racking is easy to assemble, and offers choice and flexibility to create the perfect fit for any space. Our mortuary trolleys are robust yet lightweight. The range includes both fully-welded and collapsible viewing trolleys, instrument trolleys with optimal storage, and easy-to-manoeuvre transportation trolleys.

From design and manufacture to installation and maintenance, here at Craven we have a long-standing reputation for high-quality, robust products. As a UK manufacturer with our own in-house design team, we can not only deliver on short lead times and at a competitive price point, but are also able to offer bespoke solutions if required. Contact us for more details.

MORTUARY RACKING AND MORTUARY TROLLEYS

Our mortuary racking and mortuary trolleys provide versatile, practical and long-lasting solutions for a wide range of requirements, with bespoke options also available.

With space-saving design to maximise capacity, our mortuary racking and trolleys are precision-engineered to ensure ease of use and manoeuvrability. They are made from high-quality, durable materials that are resistant to corrosion and can withstand considerable weight and extreme temperatures. They are also extremely hygienic, with removable parts making them easy to clean and maintain.

MORTUARY RACKING

Our mortuary racking fulfils a wide range of requirements with a choice of free-standing, mobile, fixed height, adjustable height and even bespoke options to maximise storage capacity. Our specialist in-house installation team works across the UK to ensure our racking solutions perfectly fit the space for which they are intended.

- Choice of free-standing, mobile, fixed-height or adjustable-height units
- Bespoke options also available
- Range of sizes
- Single, double and multiple bays
- Stainless Steel or Epoxy Coated
- Sturdy and robust
- Can withstand -30° temperatures
- Four evenly-spaced rollers offer easy tray transfer
- Hygienic and easy to clean
- Easy to assemble, with various fixing options
- Manufactured in the UK using British suppliers
- Standard warranty applies
- For further information please contact us

SEE PAGE 78 FOR PRODUCT SPECIFICATIONS

OEM & BESPOKE

- Here at Craven, we use our expertise and experience of more than 60 years to design bespoke solutions for a wide range of clients
- We are continually investing in new technologies to enable us to create and manufacture original, innovative and unique products

- Our bespoke products are designed and manufactured at our UK premises, meaning we remain hands-on throughout the whole process to ensure that the final product meets and even exceeds your expectations
- We are able to provide both small batch and larger volumes of products due to our UK manufacturing facility and our established network of local partners

CAMBRO

CAMBRO[®]
TRUSTED FOR GENERATIONS[™]

- Craven began their partnership with Cambro in February 2020, expanding their selection of high quality shelving and storage products
- Cambro have been providing high quality and durable catering solutions since 1951

- The partnership between both manufacturers allows us to offer our customers a more versatile range of products into a wide range of sectors from healthcare to education and catering
- Cambro products are recognised worldwide for their food safety and durability – Camshelving Elements & Premium ranges have a lifetime guarantee against rust and corrosion
- Many Cambro sundry products are perfectly suited to work alongside Craven products – such as their CamTrays and baskets -see below examples!
